

WINSAFE

OUTRIGGER BEAM SYSTEMS

OUTRIGGER DAVIT

WINSAFE's Outrigger Davit provides quick, easy clearance over tall parapets of up to 8 feet in height, while keeping the outrigger beam and the counterweights at a safer and more manageable rooftop level.

- Integrates seamlessly with WINSAFE's modular outrigger beam system.
- The hinged vertical mast is easily tilted and pinned into position.
- Provides up to 4 feet of reach and 1,000 lbs load capacity with a minimum 4:1 safety factor.
- Lightweight and durable aluminum and galvanized steel construction ensures years of trouble free operation.
- Modular design offers superb ease of handling.
